React.js Essential Training

Shivakumar Doddamani

Passionate Frontend Developer with 3+ years in web and mobile apps, specializing in React.js, Redux, and React Native, dedicated to delivering high-quality user experiences and mentoring teammates to foster growth.

Bengaluru, Karnataka, India

Summary

At SwiftSense, I work with a team of three to develop mobile and web applications using cutting-edge technologies such as React Native, Redux, Git, React, JavaScript. We deliver high-quality software solutions with comprehensive test coverage, meeting user specifications and software requirements within time constraints. I contributed to the development of a mobile app that increased user engagement by 50% and a web app that improved customer retention by 25%.

I have a Bachelor of Engineering degree in Computer Software Engineering from Basaveshwar Engineering College, where I gained a solid foundation in coding, designing, and testing software systems. I am passionate about building accessible, human-centered products that solve real-world problems and enhance user experiences. I am also an open-source contributor and a certified Vue.js and React.js developer. I am always eager to learn new skills and explore new challenges in the software industry.

Experience

SWIFTSENSE IT Solutions Pvt Ltd
Mobile Application Developer
November 2023 - Present (1 year 3 months)
Bengaluru, Karnataka, India

aveto
Software Engineer
May 2021 - August 2023 (2 years 4 months)
Bengaluru, Karnataka, India

Worked in a team of 3 to develop mobile applications and web applications using React Native, Redux, Git, React, Redux, JavaScript, JQuery, HTML,

CSS/Sass, and MIVA. Developed high-quality software solutions with comprehensive test coverage. Gathered and analyzed user specifications and software requirements to determine technical needs within time constraints. Participated in Requirement analysis and provided estimates for the development effort. Wrote unit test cases to ensure the code was Regression issue free and bug-free. Performed code reviews, Analyzed business objectives, and translated requirements into technical implementation components.
