Git, Agile Scrum

Responsive Web/Mobile
Development

Conferences & Courses

React Native
Udemy

Advanced Web Development
Linkedin Learning

Work History

Swiftsense IT Solutions

Mobile App Developer
Nov 2023 - Present

I am leading a team to develop mobile and web applications using React Native and Redux. These applications are intended to be cross-platform, that can be used across several devices with different operating systems. This helps us save time and money because we don't have to write separate code for each operating system.

Aveto Consulting

Associate Software Engineer
May 2021 - Aug 2023

I gained invaluable experience working in an agile environment, where I was able to unlock my potential. I successfully developed a range of web and mobile applications using React, Redux, React Native, and Miva, all within the timelines set during sprint meetings.

Career Objective

Dynamic Frontend Developer with 3.5 years of experience in React and React Native. Skilled in creating responsive web and mobile applications, focusing on user experience. Proficient in component-based architecture and state management. Eager to leverage technical expertise in a challenging role to enhance skills and contribute to impactful projects.
